

BASIC Salutes its College Graduates

Carlos Garcia earned a B.A. in Business Administration with an emphasis in Finance from California State University, San Marcos this past December.

In his own words...

Despite my initial lack of interest in academic studies, the Basic foundation fundamentally changed my perspective on education, leading me to pursue a college degree. The financial support I received covered various college expenses, including textbooks and essential class materials. This financial assistance significantly alleviated stress, allowing me to concentrate on my academic studies. My family and I are immensely grateful to the Basic program and its generous donors. Their support plays a crucial role in shaping the futures of students like myself. I hope that others consider contributing to such a program. They are not only excellent initiatives but also dedicated a lot of time and resources to assist the next generation in their educational and personal development.

During my final semester of college, I researched various opportunities to embark on an entrepreneurial journey while also contributing positively to others. This research led to the creation of Pacific Cell Cleaning LLC, a company that specializes in solar panel cleaning. Many might consider this service unnecessary, yet there are several compelling reasons to maintain clean solar panels. I won't go into all these reasons, but I will share the primary motivation behind my venture. My goal has always been to assist others in meaningful ways. By offering solar panel cleaning services, I provide my clients with significant savings. Without regular cleaning, solar panels fail to operate at their maximum efficiency, resulting in reduced energy production. Our services ensure that our clients' solar panels yield optimal energy output, thereby enhancing their investment and contributing to sustainable energy use. Although we may specialize in Solar panel cleaning, we do offer other services such as power washing, gutter cleaning, and window washing. My team delivers top-quality results, enhancing your property's efficiency and aesthetics. Reliability, Quality work, and professional cleaning solutions can be guaranteed every time.

I want to express my deepest gratitude for everything that Basic has done, not only for me but also for other individuals from Borrego who have benefited from such generosity. If there is anything ... that Basic would like me to do, please let me know. I am eager to assist in any way I can, just as Basic has helped me. Thank you to the entire Basic team.
