

## **The Jim McFarland Memorial Scholarship**

*for students pursuing vocational studies:*

and

## **The Jim McFarland Memorial Automotive Technology Scholarship**

*for a student pursuing a career in automotive technology:*

*We ...Tracey and Stuart McFarland...feel strongly about providing students with an opportunity to study automotive technology. Our father really was a self-made man. From his Depression-era youth in Iowa, to his mother dying when he was only 8 years old; from his summer work in logging camps in Idaho and meat packing plants in Iowa, to his enlistment in the Army Air Corps during WWII; and from a baker and car salesman in Phoenix, to a successful automobile dealer and civic leader in San Diego, our father showed what hard work, sacrifice, and a positive attitude can accomplish. He supported two kids and five grandkids in obtaining 4-year college degrees. He always believed that those of us who have been more fortunate should always help those less fortunate. And he always believed in young people learning a trade they could work at and be proud of!*

*In addition to the BASIC Application and personal essay, this scholarship will require recommendation from the high school CTE Automotive teacher.*

---

This scholarship is open to graduating seniors or continuing students from Borrego Springs High School who plan to study automotive technology:

- General Automotive Technician, Auto Body Technician, Advanced Engine Performance & Emissions, Brakes & Front End, and Engine Performance & Drive Train, the Ford-sponsored training program, or the General Motors-sponsored training program
- Students who have completed or are currently enrolled in at least one CTE Automotive class, with a grade of A or B
- Students must show initiative, hard-work, a willingness to learn, and knowledge of requirements for study at a community college or technical school (as determined by Automotive Teacher and Counselor recommendation
  - May re-apply each year of study
